**SHIPPING INFO:**

Blue MICRO-B-GONE is an advanced, fast-acting diesel biocide that kills tank microbes that have developed along the water/fuel layer in diesel fuel tanks. If left unchecked, these harmful microbes can create fuel contaminants that will plug fuel filters and acids that can corrode tanks.

**DESCRIPTION:**

- Proven to kill microbes, including bacteria and fungus
- FAST ACTING – decreases microbial activity in as quickly as 6 hours after initial treatment.
- Dual-phased - effective in both water and diesel fuel
- Prevents fuel-filter plugging caused by microbial matter
- Prevents fuel tank corrosion
- Effective against bacteria for 60 days and fungi for 90 days

**BENEFITS:**

- Proven to kill microbes, including bacteria and fungus
- FAST ACTING – decreases microbial activity in as quickly as 6 hours after initial treatment.
- Dual-phased - effective in both water and diesel fuel
- Prevents fuel-filter plugging caused by microbial matter
- Prevents fuel tank corrosion
- Effective against bacteria for 60 days and fungi for 90 days

**PROPERTIES:**

| Appearance | Colorless Yellow |
| Form | Liquid |
| Odor | Odorless |
| Specific Gravity | 1.06 @25 ºC (77 ºF) |
| Solubility | Soluble in water |
| Boiling Point | 229 ºC (444.2 ºF) |
| Viscosity | 97.8mPa.s @ 25 ºC (77 ºF) |

**TREATMENT RATES**

<table>
